College Credit Plus at Edison State

College Credit Plus (CCP) provides participating students with the opportunity to earn college and high school credit concurrently, accelerating their college careers while reducing the time and cost of college attendance after high school.

Ready to Get Started? Follow the Steps Below.

SUBMIT a Letter of Intent Students must submit a **Letter of Intent** to their high school before **April 1st**. This letter informs the school district of the student's intent to participate in the CCP program for the following school year. The school district distributes the Letters of Intent. See your high school guidance counselor for additional information.

Complete these steps by visiting www.edisonohio.edu/ccp

***COVID IMPACTS:** Colleges may use either the student's scores on an assessment exam or the student's unweighted high school cumulative grade point average (GPA) to determine eligibility. A minimum unweighted cumulative high school GPA of 3.0 is required. This process will continue to be reviewed to ensure that students have appropriate access to participate in the College Credit Plus program and additional guidance may be forthcoming.

For optimal course selection and registration, it is strongly recommended prospective CCP students complete the admission and assessment steps by the timeline outlined below:

- Summer Registration**—Submit all admission materials by May 1.
- Fall Registration**—Submit all admission materials by May 1.
- Spring Registration**—Submit all admission materials by November 1.

NOTE: These are suggested timelines, not deadlines. Admissions for Edison State CCP is on-going. Non-public school and homeschooled students should refer to the State website regarding deadlines specific to them since state deadlines could impact funding opportunities. Please be advised, while Edison State does not have a specific admission deadline; your high school may have strict deadlines. You are responsible for ensuring you have met any criteria imposed by your high school to be eligible to participate in CCP.

Career Pathways at Edison State

University Transfer Degrees Complete the first two years of a Bachelor of Arts degree or Bachelor of Science degree at Edison State before transferring to a four-year university.
