

# About the Resource Guide

This resource guide was developed as a means for first responders to provide information to persons on the scene of opioid overdose, or other drug, alcohol or mental health crisis situations. Law enforcement agencies, fire/EMT, county drug and healthy community coalitions, service providers and others have provided information for the guide, and distribute it to the public. Every effort is made to assure the accuracy of the information; an online version of the information in this guide is maintained at [www.tcbmds.org/online-resource-guide](http://www.tcbmds.org/online-resource-guide) and may have information that is more recent than the printed guide. To suggest changes to the Guide, please email Brad Reed at [ReedB@tcbmds.org](mailto:ReedB@tcbmds.org)

The Resource Guide to Treatment, Support and Counseling Services is provided as a service of the Tri-County Board of Recovery and Mental Health Services, and is funded by the three-county mental health levy.

## Statement of Partners

**Our commitment to this community** is to help and assist those who suffer from mental illness and chemical dependency. Our core belief is that all persons, regardless of financial status, deserve quality prevention, intervention, and treatment services. The goal is for individuals to stop using alcohol and drugs and to achieve and maintain a drug-free lifestyle to become productive, functioning persons in family, work and society. This brochure provides an array of substance abuse and mental health treatment services and gives many different treatment options to the unique needs of each individual who is seeking services.
